

COSTAIN ABU DHABI ENVIRONMENTAL HEALTH AND SAFETY POLICY

COSTAIN

Costain Abu Dhabi shall implement its Safety, Health and Environmental Management System, ensuring that exacting standards are achieved throughout all operations and activities as laid down in the following Policy:

- ⇒ That personnel health, safety and protection of the environment are of prime importance to the Company. The Company seeks to conduct its operations in such a way as to avoid harm to all personnel, sub contractors and the environment, together with others that may be affected directly or indirectly by our activities. Also to maintain the highest practicably achievable standards of safety, occupational health and environmental protection and sustainability.
- ⇒ That the management of Safety, Health and Environmental affairs has equal status with all other primary business objectives and that safe working practices and due consideration of environmental factors contribute directly to the overall efficiency and success of this company.
- ⇒ That the implementation of our policy is a management responsibility and consequently forms an integral part of the duties of all managers and supervisors.
- ⇒ That effective performance is vital to us in achieving our Safety, Health and Environmental objectives. This Company shall ensure that all personnel associated with the development and operation of our activities have the required skill and support to meet this commitment. In addition, this Company promotes and welcomes the active participation of all in its employment, in the establishment and observance of measures to improve their health and safety at work and to protect the air, water and soil and to maintain its fitness for human, plant and animal life.
- ⇒ All Company and sub contractor personnel have a clear responsibility to co-operate and do their utmost to achieve the highest possible standards. They are required to exercise self-discipline, maintain a high level of awareness, prevent injury to themselves and others and to protect and sustain our environment.
- ⇒ Sub Contractors working for and on behalf of this Company shall work to and apply standards that are fully consistent with the Safety, Health and Environmental standards defined within this Policy, thereby achieving comparable levels of performance.
- ⇒ The Company's Safety, Health and Environmental Manager is charged not only with advising and supporting all personnel, but also with monitoring the performance of all operations. This shall be achieved in conjunction with Management to ensure that the standards maintained within the Safety, Health and Environmental Management System are being met on a daily basis.
- ⇒ The implementation and further development of this Policy is considered the best way of achieving an effective working environment throughout this Company where systems of work as developed from the Safety, Health and Environmental Management System are operated by all personnel as a matter of course. Indeed we shall be providing an example for others to emulate.
- ⇒ All work activities will be carried out with proper regard for the relevant statutory provisions and other appropriate standards, and in the case of those discreet industries such as Rail, Nuclear, Water, Oil and Gas where specific provisions apply, all work activities will comply with such specific requirements;

The Management will set objectives and targets that will be regularly reviewed and revised. The aim is to achieve standards of occupational health, safety and welfare which exceed those solely necessary to meet legal requirements. The Company is committed to continual improvement of its occupational health and safety performance to ensure that the best practices are implemented. The Management of the Company shall ensure that sufficient resources are provided to enable compliance with this policy

Alastair Smith
